Group Environmental Policy

Graphic Packaging International sites – Bardon, Gateshead and Newburn aim to lead the packaging industry through providing products from sustainable sources. Each site shall maintain certification to BS EN ISO 14001

We commit to seek reasonable and practical methods to eliminate waste, whilst reducing emissions and energy use per unit of production.

Graphic Packaging International sites Bardon, Gateshead and Newburn commit to prevent pollution to land, water and air that could occur through the manufacturing process and related activities caused by spillage or escape to atmosphere.

Graphic Packaging International sites Bardon, Gateshead and Newburn will comply with all applicable environmental legislation and other requirements.

We will minimize our environmental impact by controlling or influencing the way our products are designed, manufactured, distributed, used and disposed by using a life cycle perspective through the planned monitoring of key environmental aspects and optimisation of our business systems. Progress shall be reported during Senior Management Review meetings.

This Policy shall be communicated to all employees and other interested parties and we shall ensure that the requirements are understood. Senior Management shall formally review this policy and re-issue it annually or as business changes occur.

This policy will be communicated within the business and to other interested parties via our web site www.graphicpkgeurope.com
