Group Colour Management Policy

Graphic Packaging International sites Bardon, Gateshead and Newburn operate a colour management system that meets the requirements of the BPIF ISO 12647 Colour Quality Management Certification Scheme Version 2 September 2013.

It is our policy to ensure compliance through provision and review of the necessary infrastructure and equipment to produce compliant products. Our aim is to ensure customer satisfaction through accurate colour reproduction and consistent colour appearance against calibrated proofs for all jobs produced to the ISO12647/2 standard.

Producing packaging using offset litho printing and demonstrating compliance using a software based scoring system we will ensure that we control, maintain and develop the following elements of our system including where appropriate, the calibration of equipment.

- Colour viewing lighting to ISO 3664
- Digital colour management workflow
- Digital proofing to ISO 12647/7
- Pre press knowledge and use of ICC colour profiles
- Process inks to ISO 2846/1
- Plate making
- Print process controls
- Personnel Training, Competence and Development

This policy will be communicated within the business and to other interested parties via our web site www.graphicpkgeurope.com
