Group Allergen Management Policy

Graphic Packaging International sites Bardon, Gateshead and Newburn recognises that any food could cause an allergic reaction, however certain foods are responsible for most food allergies, these are:

- Milk
- Eggs
- Peanuts
- Tree Nuts
- Fish
- Shellfish
- Celery
- Cereals containing gluten
- Molluscs
- Mustard
- Sesame seeds and oil
- Soya
- Lupin
- Sulphur dioxide (sulphites)

Graphic Packaging International sites Bardon, Gateshead and Newburn guarantees that none of the above are used as ingredients, or in the manufacturing process of our products.

In accordance with our BRC Accreditation, foodstuffs are not allowed in the production area and consumption of food is restricted to designated areas only.

Our staff training includes hygiene requirements in accordance with the BRC standard.

Graphic Packaging International sites Bardon Gateshead and Newburn are confident that the risk of significant allergen contamination of our products is minimal and provided that limitations of use are observed, present no risk to our customers.

This policy will be communicated within the business and to other interested parties via our web site www.graphicpkgurope.com
